The stability provided by B-Free bifocal lenses supports safe and consistent vision, just as experienced individuals offer stability and confidence to their families, becoming a reference point for their loved ones!

BIFOCAL LENSES
BIFOCAL B-FREE

WHAT ARE BIFOCAL LENSES?

These lenses have two visual zones: one for distance and one for near vision (reading).

The transition between these two visual fields is very smooth, so there is no sudden image movement sensation, providing stable and comfortable vision.

BENEFITS:

- You can read or see at a distance without needing to change glasses
- Fully customized lenses
- No “image jump” sensation”
- Improved aesthetics, with no visible lines

Choose BIFOCAL B-Free with:

NEOCHROMES® Embrace the light

Material that protects the eyes from harmful UV.

B-Free Bifocal lenses are customized to fit perfectly your frame and your wearing style.
