The Protect Complete anti-reflective coating helps protect your eyes from harmful UV rays, whether light comes from the front or from behind the lens.

ANTIREFLECTIVE COATING
PROTECT COMPLETE

WHAT IS PROTECT COMPLETE?

Protect Complete is an anti-reflective treatment that provides full eye protection against both blue light and UV radiation.

This means comprehensive protection on both surfaces of the lens, wherever you are.

BENEFITS:

- It filters blue light from digital devices
- UV protection on both sides of the lens
- Reduces disturbing reflections for clearer vision
- Improves wearing comfort in all lighting conditions

CHOOSE PROTECT COMPLETE WITH:

Senso ID — **Customized single vision lenses.**

Blend iOne — **Customized progressive lenses.**

We do not recommend Protect Complete in combination with photochromic lenses.
