Every move matters in sports, and Adaptive Sport is the progressive lens that keeps up with you, delivering clarity and confidence at every moment and distance!

PROGRESSIVE LENSES
ADAPTIVE SPORT

WHAT ARE ADAPTIVE SPORT LENSES?

Adaptive Sport lenses are progressive lenses designed specifically for presbyopic wearers with an active lifestyle. Whether you're cycling, playing golf, hiking, or enjoying other outdoor activities, these lenses provide clear, stable vision in every situation.

Their personalized design prioritizes distance vision while optimizing the visual field for movement, delivering exceptional comfort and confidence with every step, ride, or adventure.

BENEFITS:

- 180° clear distance vision
- Designed for an active lifestyle
- Can be customized for curved sports frames
- Available in a wide range of materials and lens coatings

Choose ADAPTIVE SPORT with:

NuPolar® Polarized sun lenses

Adaptive Sport lenses are available with polarized and mirror coatings.
