WHY RECOMMEND ADAPTIVE TECH??

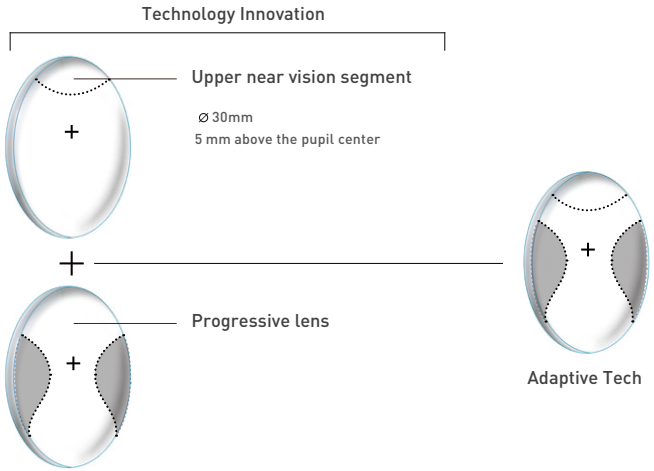

Ideal for electricians, pilots, dentists, technicians, automotive mechanics, and other professionals working overhead.

\+ Additional near vision zone in the upper part of the lens with a +1.00 D addition

Advanced Free-Form Technology for outstanding visual clarity

ADDITIONAL UPPER NEAR VISION ZONE

The Adaptive TECH design incorporates a 30 mm upper near vision segment, positioned 5 mm above the reference center of the distance vision zone, specifically optimized for tasks performed above eye level.

PROGRESSIVE LENSES

ADAPTIVE TECH

Adaptive TECH extends the functionality of a conventional progressive lens by integrating a second near vision zone in the upper part of the lens.

This innovative design provides greater visual comfort for professional tasks and hobbies that require working above the head, allowing the wearer to maintain a more ergonomic posture while enjoying clear, comfortable vision.

RECOMMEND ADAPTIVE TECH WITH:

LED PRO Material designed for enhanced visual comfort under LED lighting

Protect Complete Premium lens coating for complete UV protection

Adaptive TECH lenses are available in a wide range of materials, including Transitions® Style Colors.
