Even though it's transparent, the UV PRO lens provides 100% UV protection

## WHY DO YOU NEED UV PRO?

A portion of visible light, blue light, is harmful to the human eye.

## HOW WILL YOU SEE THROUGH THE UV PRO LENSES?

Although it blocks UV rays, it does not distort reality.

## HOW UV PRO PROTECTS?

Blocks 100% of harmful UV rays up to a wavelength of 420 nm, allowing blue-turquoise light to pass through at a rate of 85%.
